

Sinclair Broadcasting's decision to have their stations air the documentary "STOLEN HONOR" about John Kerry's horrible ways he said and did things that caused further suffering of prisoners of war in Vietnam and is a clear reason of how the truth needs to be told to the American People.

Sinclair is obligated by law to serve the public interest with presenting the truth and is democracy in action. It's important that as many people as possible across our country gets more substantive news about issues that matter, and "STOLEN HONOR" is definitely one of the issues.

Sinclair's actions show why we need to encourage all media facilities in this country to report the news correctly, not slanted.
Thank you.
